

Align Technology to Present at JP Morgan H&Q Healthcare Conference

Santa Clara, Calif. - January 2, 2003 - Align Technology, Inc. (Nasdaq: ALGN) announced today that Thomas M. Prescott, President and CEO, is scheduled to speak at the JP Morgan H&Q Healthcare Conference on Wednesday January 8, 2003 at 11:30 am PST.

A live webcast of the presentation will be available in real time at Align's website at www.invisalign.com under the Investor Relations/Events section. An archived replay will remain at the website for seven days.

About Align Technology, Inc. Align Technology designs, manufactures and markets Invisalign, a proprietary method for treating malocclusion, or the misalignment of teeth. Invisalign corrects malocclusion using a series of clear, comfortable and removable appliances that gently move teeth to a desired final position. Because it does not rely on the use of metal or ceramic brackets and wires, Invisalign significantly reduces aesthetic and other limitations associated with braces. Invisalign is appropriate for treating adults and older teens. Align Technology was founded in March 1997 and received FDA clearance to market Invisalign in 1998.

To learn more about Invisalign or to find a certified Invisalign doctor, please visit www.invisalign.com or call 1-800-INVISIBLE.

The foregoing information represents Align Technology's outlook only as of the date of this press release, and Align undertakes no obligation to update or revise any forward-looking statement, whether as a result of new developments or otherwise.
