

## Align Technology to Present at the JMP Securities Research Conference

SANTA CLARA, Calif., May 10, 2007 /PRNewswire-FirstCall via COMTEX News Network/ -- Align Technology, Inc. (Nasdaq: ALGN), the inventor of Invisalign(R), a proprietary method of straightening teeth without wires and brackets, announced today that Eldon M. Bullington, Vice President of Finance and Chief Financial Officer of Align Technology, Inc., is scheduled to speak at the Sixth Annual JMP Securities Research Conference on Monday, May 21, 2007 at 11:30 a.m. ET / 8:30 a.m. PT. A live webcast of the presentation will be available at 11:30 a.m. ET on Align's web site at <http://investor.aligntech.com>. An archived replay will remain on the web site for one month. About Align Technology, Inc.

Align Technology designs, manufactures and markets Invisalign, a proprietary new method for treating malocclusion, or the misalignment of teeth. Invisalign corrects malocclusion using a series of clear, nearly invisible, removable appliances that gently move teeth to a desired final position. Because it does not rely on the use of metal or ceramic brackets and wires, Invisalign significantly reduces the aesthetic and other limitations associated with braces. Invisalign is appropriate for treating adults and older teens. Align Technology was founded in March 1997 and received FDA clearance to market Invisalign in 1998.
