

## Align Technology to Present at the UBS Global Life Science Conference

SANTA CLARA, Calif., Sept 19, 2005 /PRNewswire-FirstCall via COMTEX/ -- Align Technology, Inc. (Nasdaq: ALGN), the inventor of Invisalign(R), a proprietary method of straightening teeth without wires and brackets, announced today that Thomas M. Prescott, President and CEO, is scheduled to speak at the UBS Global Life Science Conference on Monday, September 26 at 8:00 a.m. EST/5:00 a.m. PST.

A live audio web cast will be available on September 26, 2005 at 8:00 a.m. EST/5:00 a.m. PST on Align's web site at <http://investor.aligntech.com> in the Webcasts and Presentations section. An archived replay will be available until October 29, 2005.

About Align Technology, Inc.

Align Technology designs, manufactures and markets Invisalign, a proprietary method for treating malocclusion, or the misalignment of teeth. Invisalign corrects malocclusion using a series of clear, nearly invisible, removable appliances that gently move teeth to a desired final position. Because it does not rely on the use of metal or ceramic brackets and wires, Invisalign significantly reduces the aesthetic and other limitations associated with braces. Invisalign is appropriate for treating adults and older teens. Align Technology was founded in March 1997 and received FDA clearance to market Invisalign in 1998.

To learn more about Invisalign or to find a certified Invisalign doctor in your area, please visit [www.invisalign.com](http://www.invisalign.com) or call 1-800-INVISIBLE.
