

Align Technology to Present at Banc of America Securities Health Care Conference 2004

SANTA CLARA, Calif., May 13 /PRNewswire-FirstCall/ -- Align Technology, Inc. (Nasdaq: ALGN), the inventor of Invisalign®, a proprietary method of straightening teeth without wires and brackets, announced today that Eldon Bullington, Vice President, Finance and CFO, is scheduled to speak at the Banc of America Securities Health Care Conference 2004 on Thursday, May 20, 2004 at 11:20 am EDT / 8:20 am PDT.

A live webcast of the presentation will be available at 11:20 am EDT / 8:20 am PDT on Align's web site at www.aligntech.com in the Investor Relations/Presentations section. An archived replay will remain on the web site for one year.

About Align Technology, Inc.

Align Technology designs, manufactures and markets Invisalign, a proprietary method for treating malocclusion, or the misalignment of teeth. Invisalign corrects malocclusion using a series of clear, nearly invisible, removable appliances that gently move teeth to a desired final position. Because it does not rely on the use of metal or ceramic brackets and wires, Invisalign significantly reduces the aesthetic and other limitations associated with braces. Invisalign is appropriate for treating adults and older teens. Align Technology was founded in March 1997 and received FDA clearance to market Invisalign in 1998.

To learn more about Invisalign or to find a certified Invisalign doctor in your area, please visit www.invisalign.com or call 1-800-INVISIBLE.
