

## Align Technology to Present at the Jefferies Life Sciences Conference

SANTA CLARA, Calif., June 20, 2006 /PRNewswire-FirstCall via COMTEX News Network/ -- Align Technology, Inc. (Nasdaq: ALGN), the inventor of Invisalign(R), a proprietary method of straightening teeth without wires and brackets, announced today that Eldon M. Bullington, VP Finance and Chief Financial Officer of Align Technology, Inc., is scheduled to speak at the Jefferies Life Sciences Conference on Tuesday, June 27, 2006 at 11:15 am EDT / 8:15 am PDT. A live webcast of the presentation will be available at 11:15 am EDT on Align's web site at <http://investor.aligntech.com>. An archived replay will remain on the web site for one month.

About Align Technology, Inc.

Align Technology designs, manufactures and markets Invisalign, a proprietary new method for treating malocclusion, or the misalignment of teeth. Invisalign corrects malocclusion using a series of clear, nearly invisible, removable appliances that gently move teeth to a desired final position. Because it does not rely on the use of metal or ceramic brackets and wires, Invisalign significantly reduces the aesthetic and other limitations associated with braces. Invisalign is appropriate for treating adults and older teens. Align Technology was founded in March 1997 and received FDA clearance to market Invisalign in 1998.
