

## **Align Technology to Present at JPMorgan Healthcare Conference**

SANTA CLARA, Calif., Jan. 8 /PRNewswire/ -- Align Technology, Inc. (Nasdaq: ALGN), the inventor of Invisalign®, a proprietary method of straightening teeth without wires and brackets, announced today that Thomas M. Prescott, President and CEO, is scheduled to speak at the 22nd Annual JPMorgan Healthcare Conference on Thursday, January 15, 2004 at 1:30 p.m. EST / 10:30 a.m. PST.

A live webcast of the presentation will be available at 1:30 p.m. EST on Align's web site at [www.invisalign.com](http://www.invisalign.com) under the Investor Relations/Presentations section. An archived replay will remain on the web site for one year.

About Align Technology, Inc.

Align Technology designs, manufactures and markets Invisalign, a proprietary new method for treating malocclusion, or the misalignment of teeth. Invisalign corrects malocclusion using a series of clear, nearly invisible, removable appliances that gently move teeth to a desired final position. Because it does not rely on the use of metal or ceramic brackets and wires, Invisalign significantly reduces the aesthetic and other limitations associated with braces. Invisalign is appropriate for treating adults and older teens. Align Technology was founded in March 1997 and received FDA clearance to market Invisalign in 1998.

To learn more about Invisalign or to find a certified Invisalign doctor, please visit [www.invisalign.com](http://www.invisalign.com) or call 1-800-INVISIBLE.

The foregoing information represents Align Technology's outlook only as of the date of this press release, and Align undertakes no obligation to update or revise any forward-looking statement, whether as a result of new developments or otherwise.
