

## Align Technology to Announce First Quarter Fiscal 2008 Results On April 29

SANTA CLARA, Calif., Apr 2, 2008 (PrimeNewswire via COMTEX News Network) -- Align Technology, Inc. (Nasdaq:ALGN), the inventor of Invisalign(r), a proprietary method of straightening teeth without wires and brackets, announced today that the Company will report first quarter 2008 financial results on Tuesday, April 29, 2008, after the close of market. Financial results will be released over PR Newswire and First Call and will be available on the Investor Relations section of the Company's website at <http://investor.aligntech.com>.

Following the press release, Align Technology executives will host a conference call to review first quarter financial results. The conference call will begin at 4:30 p.m. ET (1:30 p.m. PT) and will also be available as an audio web cast live via the Internet. To access the web cast, please visit the Investor Relations section of Align Technology's website at <http://investor.aligntech.com>. To access the conference call, please dial 201-689-8341 approximately fifteen minutes prior to the start of the call.

If you are unable to listen to the call, an archived web cast will be available beginning approximately one hour after the call's conclusion and will remain available for approximately 12 months. Additionally, a telephonic replay of the call can be accessed by dialing 877-660-6853 with account number 292 followed by # and conference number 280015 followed by #. The replay must be accessed from international locations by dialing 201-612-7415 and using the same account and conference numbers referenced above. The telephonic replay will be available through 5:30 p.m. ET on May 14, 2008.

About Align Technology, Inc.

Align Technology designs, manufactures and markets Invisalign, a proprietary method for treating malocclusion, or the misalignment of teeth. Invisalign corrects malocclusion using a series of clear, nearly invisible, removable appliances that gently move teeth to a desired final position. Because it does not rely on the use of metal or ceramic brackets and wires, Invisalign significantly reduces the aesthetic and other limitations associated with braces. Invisalign is appropriate for treating adults and older teens. Align Technology was founded in March 1997 and received FDA clearance to market Invisalign in 1998.

To learn more about Invisalign or to find a certified Invisalign doctor in your area, please visit [www.invisalign.com](http://www.invisalign.com) or call 1-800-INVISIBLE.
